Karate Wireless Clickers

Preparation Steps

- 1** All Button Boxes must be turned off (On/Off switch is located on the front of the Button Box)
- 2** All Wireless Receivers must be disconnected from USB Hub
- 3** Plug the USB Hub into the computer
- 4** **Pairing:** Plug one Wireless Receiver into the USB Hub and **then turn on** one Button Box. Wait for 5 seconds. The Button Box will automatically pair with Wireless Receiver within 5 seconds
- 5** Repeat **Step 4 one by one** for other Wireless Receivers and Button Boxes (Wait 5 sec for pairing **then plug** other Receiver and continue Step 4)
- 6** After that you can run the Software for scoring

About Device

- When you turn on the Button Box, the light in the upper will be green
- If the light green, it indicates that the battery level and connection are ok. When the battery is low, the light turns red
- Even after light turns red, the device continues to operate for at least 1 hour, Recommend to change the batteries within this period. If the light blinks, it indicates that the connection is low
- The Button Box operates uninterruptedly and stably within distance of **10 meters** from receiver
- The Button Box works with 2 x AAA 1.5 V Alkaline batteries. Don't use rechargeable battery
Duracell Optimum AAA Battery recommended

Receiver with antenna is used for distances up to 20 meters
